

Mission Fiesta Prayer Calendar July 2010

First God. God is the subject of life. God is foundational for living. If we don't have the sense of the primacy of God, we will never get it right, get life right, or get our lives right. Not God at the margins; not God as an option not God on the weekends. **God at center and circumference; God first and last; God, God, God.**

Genesis gets us started off on the right foot. Genesis pulls us into a sense of reality that is God-shaped and God-filled. It gives us a vocabulary for speaking accurately and comprehensively about our lives, where we come from and where are going, what we think and what we do, the people we live with and how to get along with them, the troubles we find ourselves in and the blessings that keep arriving.

Genesis uses words to make a foundation that is solid and true. Everything we think and do and feel is material in a building operation in which we are engaged all our life long. There is immense significance in everything we do. Our speech and our actions are all, every detail of them, involved in this vast building operation comprehensively known as the Kingdom of God. But we don't build the foundation. The foundation is given. The foundation is firmly in place.

No matter what we do whether good or bad, we continue to be a part of everything that God is doing. Nobody can drop out --there's no place to drop out to. So we may as well get started and take our place in the story ----- at the Beginning!
